

Sales of Used Mobile Crane Equipment is rapidly becoming an area of recognition for the HMC Group. To date, with the update and acquisition of plant, **HMC SALES & SERVICE** have developed a 'niche' client base that it has sold anything from 100t All Terrain Crane through to Rough Terrain, Truck Cranes, City (Bubble) Cranes and Mini Crawlers. With good quality Used Equipment becoming ever more difficult to locate **HMC SALES** has now established itself as a division that offers top quality and value for money products to its Sales Clients.

HMC Sales & Service goes to great lengths to ensure that each and every item of plant procured for the HMC Group meets the most stringent criteria.

The policy and philosophy HMC follow is a simple one ,,,,,,,,,, Whatever we purchase must be of the highest standard available to ensure quality of product to our Sales Clients and or Dry Hire Clients each and every time.

As such, HMC do not purchase any unit for Sales and or Dry Hire Rental until it has had a full and thorough inspection, and fulfills a comprehensive mechanical and operational check. ANY unit purchased by the HMC Group has the potential to end up as an item of HMC Dry Hire and or Huntingdale Cranes Wet Hire Fleets, as such we insist on the very best in every way.

So ,,,, Should you choose to purchase an item of plant from the HMC Group you can rest assured the unit will meet every criteria needed for safe and reliable operation for many years to come!!!
